Pol. ad pd. for by Robert Miklos for State Representative

Like two peas in a pod ...

Rick Perry and Kenneth Sheets

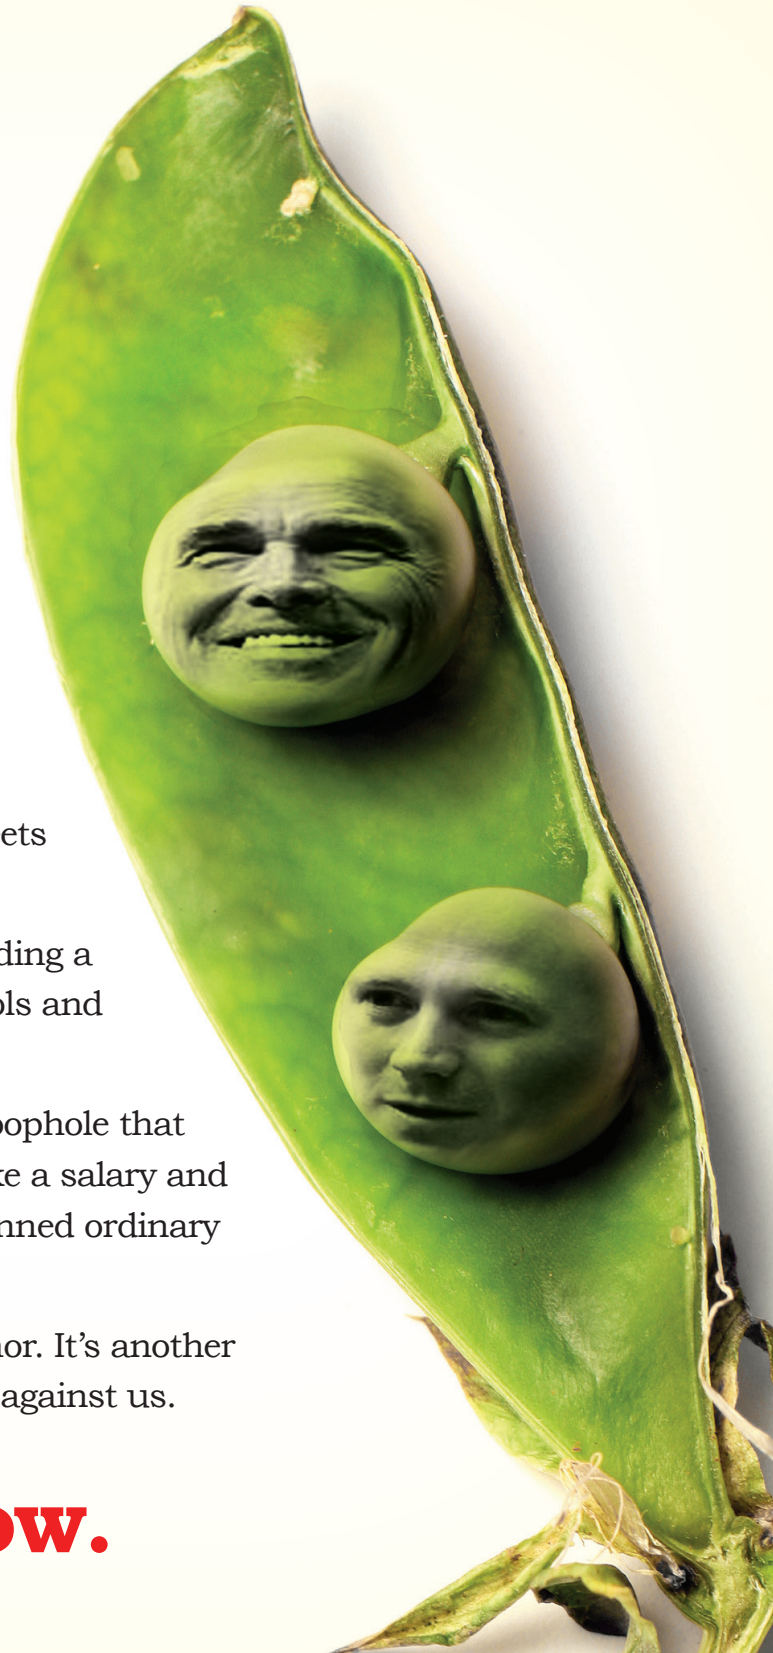

If you like the job that Rick Perry is doing as Governor, then you'll love the job Kenneth Sheets did as our State Representative.

Sheets rigidly followed the Perry agenda, including a full-scale attack on our children's public schools and health care for seniors and women.

Sheets even filed legislation that preserved a loophole that allows career politicians, like Rick Perry, to take a salary and pension at the same time. However, his bill banned ordinary employees from doing the exact same thing.

It's one thing to have Rick Perry as our Governor. It's another thing to have these two peas in a pod working against us.

Real. Reform. Now.

Kenneth Sheets

Helping Rick Perry, Not Us

Kenneth Sheets filed legislation last year that would have banned retired state employees from collecting their pension and a salary at the same time if they return to work for the state.

Sheets' "double-dipping" ban would have affected all state employees, except for one exclusive group.

Want to guess who's in that group? Yep, Rick Perry.

And wouldn't you know it, Perry is double-dipping himself, collecting his \$150,000-a-year salary and \$92,000-a-year pension at the same time.

First, Sheets filed legislation that excluded state legislators from deep pension cuts. Then he made sure they were spared from a ban on double-dipping.

Rick Perry sure must be happy with Kenneth Sheets. Are you?

Real. Reform. Now.
